Attraction
Ticketing
Systems

Visitor Attraction Ticketing

TCS Advance Attraction Ticketing is a complete **software and hardware** system specifically designed for the visitor attraction industry. The system includes a range of functions to allow you to sell any number of ticket types and prices, with Chip & Pin payment, **Gift Aid** entry, Market Research capture and integrated timed tours. This system will provide everything you need to provide the professional ticketing service you require.

A great web **E-ticket interface** allows you to sell secure advance visitor tickets with instant updates to and from your on-site ticketing operations. The system comes complete with the ability to sell simple or 'timed ticket slots' and track customer loyalty and sales history throughout. Barcoded E-Tickets can be 'Print at home' and quickly validated on arrival using the latest Windows touchscreen technology and ticket scanning hardware.

affordable solutions for all your business needs
