THE PRODUCT

TCS Advance Group Bookings for museums, country houses, conference centres and visitor attractions.

A complete software solution to manage advance group bookings as well a professional conference management solution, including multiple location diaries and catering and requirements' management system.

The TCS Advance Group Booking system also integrates fully with TCS Advance Ticketing, allowing you to process group bookings through the visitor reception. This means it's quick and easy to make changes to the booking on arrival, as well as create visitor tickets for the booking and produce statements or invoices.

The group booking diary system is also a fully functional 'property management' system allowing any number of rooms and locations to be booked. In fact any booking requirement can be managed by the system, including visitor numbers and additional items such as catering and conference items

OUR ADVANTAGES

Our systems are designed completely in-house by our own software authors.
Direct access to our system designers is always possible. Often led by customer 'extra feature requests' new functions and facilities we think other customers may find useful are included in our standard software range.

- British in-house software design
- Built around the latest Microsoft Systems
- Quick and easy to use professional systems

TESTIMONIALS

"A great solution, we are immensely pleased the system provides just what we needed and required to speed up and provide the professional customer we were hoping for..."

Lora Smith

"Just what we were looking for, and so easy to use. A very professional system with many features we'd not even thought of. The training videos are brilliant.."

John Harris

"We're not sure how we ever managed without this system. We save so much time producing sales stats and management reports, and all at the click of a button..."

Jessica Priston
