THE PRODUCT

TCS Advance Ticketing for historic and local railways and visitor attractions.

A software and hardware solution to create a fully functional advance train booking and walk-in ticketing system.

A fast and easy way to record and print walk-in train tickets, process and verify advance purchased e-tickets and record membership/loyalty sales.

The Ticketing Touch-Screen computer - makes it incredibly quick to use. Any of the 'ticket button's can be set to lead to any number of ticket type 'layers' meaning you can manage any number of train tickets and station stops. Each of the ticket buttons can also be colour coded making it even easier to find the right tickets.

OUR ADVANTAGES

Our systems are designed completely in-house by our own software authors.
Direct access to our system designers is always possible. Often led by customer 'extra feature requests' new functions and facilities we think other customers may find useful are included in our standard software range.

- British in-house software design
- Built around the latest Microsoft Systems
- Quick and easy to use professional systems
